

Worksheet

Module 7 Bridesmaid/ Debs

Carving the Brow:

- Why use a thicker base to carve out the brow today?
- How do we apply this?
- Where do you apply the product first? Why?
- Why do you need to work quickly with this base? Where do you stamp and where do you slice?

Brush Theory:

- Why do we hold our brush at the end of the handle?
- When can you hold the brush at the top of the handle while still having a light touch? Why is a light grip important?
- What does this do?

Worksheet

Module 7 Bridesmaid/ Debs

Eye Base:

- How can you apply the Bperfect base?
- Why do you have to make sure your base is a lovely texture?
- What are the benefits of using a cream contour as an eye base?
- Where do you apply this base?
- When you get to the inner part of the eye where do you look?
- How do you fade the edges out into the skin and get a lift to the eye?
- How much product is on your brush when you do this?
- What pressure and motion do you use?
- What are the benefits of layering with cream products?
- How do you build up more intensity in the socket?

Worksheet

Module 7 Bridesmaid/ Debs

Eye Base (continued)

- Why do you make the inner corner of your lid as dark as the outer corner in this look?
- If you make a mistake or if any edges are harsh how can you clean it up?
- Why is it important to look straight ahead when finding your shape?
- When cleaning up with a fluffy brush why is it important to have a little bit of product on it?
- What texture do you want your base to be before applying your shadow?

Worksheet

Module 7 Bridesmaid/ Debs

Shadow:

- Why are we using a bigger blending brush for this look?
- How do you get your product onto the brush?
- Where do you place that first colour on the eye?
- What motion and pressure do you use?
- How do you soften the edges?
- What motion and pressure do you use?
- How much product is on your brush when doing this?
- What way are you looking into the mirror?
- How do you apply your bronzer to the edges and soften it into the skin?
- What pressure and motion do you use?

Worksheet

Module 7 Bridesmaid/ Debs

Shadow (continued):

- Where do you place your base on the lid? How do you make sure it's dead centre?
- Why do you want to take it up higher than your natural crease?
- How do you soften the edges of the base out and make sure the texture is perfect for the pigment?
- What kind of brush do you use?
- Where can you apply your eyeshadow keeper?
- How do you make sure there's no edges?
- How do you apply your pigment?
- Why do you pat and not wipe?
- How do you soften the edges of the pigment?
- Why do you apply some bronzer on the lid too?

Worksheet

Module 7 Bridesmaid/ Debs

Liner::

- Where do you place your liner first?
- What motion do you use?
- What direction do you take your brush?
- What way are you looking when you get the shape of your little wing?
- What way are you looking to find the stencil of what flows from your wing over to meet your lid?
- What way are you looking when you want to colour in your stencil?
- If you make a mistake when colouring in and take your dip "over" rather than "down" and it alters the shape of your flow – how do you correct this?

Worksheet

Module 7 Bridesmaid/ Debs

Brow Highlight:

- Why are we using a brush like this to apply our brow highlight?
- What pressure and motion do we use?
- How do you soften the edges?

Inner Corner Highlight:

- Why do you apply a white concealer before doing the inner corner highlight?
- What effect does this give?
- How do you make sure that it pops but still fades at the edges?

Worksheet

Module 7 Bridesmaid/ Debs

Skin:

- What does the Urban Decay Primer do?
- Why am I applying the Sunglow foundation as another primer today?
- What kind of coverage do you want for summer/day time events? Why?
- Why do we apply a small bit of foundation at a time and bounce it in lightly with the damp sponge?
- Why do we want less on our sponge/brush when doing the upper lip?
- If there are hairs on the face what motion and amount of product do you use in that area? Why?
- How you you fade your foundation on the forehead and sheer it into the hairline? Where do you apply your concealer?
- Why do you want to make sure that there's less of it on your sponge when you get to the crepey parts of the undereye?
